Project Name	OPTICROP – SMART AGRICULTURAL PRODUCTION OPTIMIZATION ENGINE
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Farmer visits OptiCrop system - Collects soil nutrient values - Checks weather conditions	- Enters N, P, K, Temperature, Humidity, pH, Rainfall values - Submits data for prediction - Waits for recommendation	- Reviews recommended crop - Plans cultivation accordingly - Takes farming decisions

Touchpoint <i>What part of the service do they interact with?</i>	• Web Application Home Page • Input Form • User Interface	• Prediction Engine • Flask Backend • Machine Learning Model	• Recommendation Result Page • Dashboard Output • Crop Information
Customer Thought <i>What is the customer thinking?</i>	• Which crop is suitable for my land? • Can this system help me? • Will the recommendation be accurate?	• Is my data entered correctly? • How does the prediction work? • What crop will be recommended?	• Will this crop increase my yield? • Can I trust this recommendation? • Will it improve profitability?
Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful • Interested	• Excited • Expectant • Engaged	• Confident • Satisfied • Motivated
Process Ownership <i>Who is in the lead on this?</i>	• Farmer • OptiCrop Interface Team	• Machine Learning System • Backend Processing Module	• Farmer • Agricultural Decision Support System
Opportunities <i>How can we improve this stage?</i>	• Improve awareness among farmers • Add multilingual support • Provide tutorials	• Improve prediction accuracy • Add real-time weather integration • Faster response time	• Provide detailed crop insights • Add fertilizer recommendations • Add market price predictions
